AIM

The main aim of this initiative is to inculcate Scientific Writing in our CS students and providing them an avenue to publish their work.IJACSI aims to publish high-quality,peer-reviewed research that advances the fields of **Computer Science, Artificial Intelligence, and Emerging Technologies,** fostering innovation and providing a platform for global knowledge exchange.

FOCUS

The Journal of Advanced Computing Science and Innovation (JACSI) publishes high-quality research in core and emerging areas of Computer Science.The journal welcomes original research ,reviews, and case studies in Artificial Intelligence , Data Science, Cyber security, Software Engineering, IoT, Cloud Computing, and Computational Intelligence. It also covers Image Processing, Computer Vision, Human-Computer Interaction, and Future Technologies such as Industry 4.0 and Quantum Computing. JACSI encourages interdisciplinary work that integrates computing with science, engineering, business, and societal applications. The scope evolves with advancements in technology and current research trends.

SCOPE

To provide a platform for high-quality research contributions in core and emerging areas of Computer Science. The journal welcomes original research articles,review papers,technical notes, case studies, and survey papers that advance knowledge, promote innovation, and address contemporary challenges in computing.

- **Artificial Intelligence and Machine learning**
  Deep learning, neural networks, expert systems, knowledge representation, intelligent agents.

- **Data Science, Big Data & Analytics**
  Data mining, statistical modelling, predictive analytics, data engineering.

- **Natural Language Processing & Speech Technologies**
  Language modelling, sentiment analysis, machine translation, conversational AI.

- **Cyber security , Cryptography & Network Security**
  Cyber defence, intrusion detection, secure communication, blockchain security.

- **Cloud Edge & Distributed Computing**
  High-performance computing,grid computing, serverless architectures.

- **Software Engineering & Quality Assurance**
  Software design, testing methodologies, DevOps, software project management**.**
- **IoT, Embedded Systems & Smart Devices**
  Sensor networks, wearable technologies, smart environments, industrial IoT.

- **Image Processing, Computer vision & Pattern Recognition**
  Object detection, visual computing, biometric systems, video analytics.

- **Computational Intelligence & Optimization Techniques**
  Evolutionary algorithms, swarm intelligence, fuzzy system.

- **Robotics, Automation & Control Systems**
  Autonomous navigation, robotic learning, industrial automation.

- **Human-Computer Interaction & UX Design**
  Interaction design, AR/VR interfaces, usability studies.

- **Emerging and Future Technologies**
  Quantum computing, neuromorphic computing, Industry 4.0 and 5.0 technologies.

The scope is dynamic and continually updated to reflect the evolving landscape of Computer Science and Technology. IJACSI encourages interdisciplinary studies that integrate computing with fields such as engineering, healthcare, business, environmental science, and social systems.

ORGANIZATIONAL STRUCTURE

1. **Patrons**

- **Chief Patron** – Revered Bishop Ayya
- **Patron –** Dr. Princy Merlin, Principal. BHC
- **Advisory Patrons**

  1. Dr.Violet Dhayabaran,Dean, Academics-Sciences
  2. Dr.Vijayalakshmi, Dean, Research and Development
  3. Dr.Angeline Vedha , Dean. IQAC

2. **Chief Editor**

- **Editor-in-Chief :** Dr. J.G.R. Sathiaseelan
- **Associate Chief-Editor :** Dr. K. Rajkumar

3. **Managerial Editorial Team**

- Dr. G. Sobers Smiles David
- Dr. R. Thamarai Selvi
- Dr. D. Kirubai
- Dr. S. Sophia

4. Associate Editors

- Dr. John Raybin Jose
- Dr. R. Jemima Priyadarshini
- Dr. J. James Manoharan
- Dr. Isac Gnanaraj

5. Editorial Board Members

- Dr. P. Thangaraju
- Dr. P.S. Eliahim Jeevaraj
- Dr. M. Kasthuri
- Dr. L. Jeyasimman
- Dr. M.S. Mythili
- Dr. M.P. Anuradha
- Dr. M. Subalakshmi
- Dr. Ramah Sivakumar
- Dr. B. Karthikeyan

6. Panel of Reviewers (Internal)

- Dr. B. Sathees Kumar
- Dr. M. Jayakkumar
- Dr. K. Mohd. Amanullah
- Dr. H.B. Vincent Raj
- Dr. M. Lovelin Pon Felciah
- Dr. S. Annal Ezhil Selvi
- Dr. B. Arputhamary
- Dr. J. Sai Geetha
- Dr. B. Gayathri
- Prof. S. Thiyables Stephen Smith
- Prof. A. Rizwana
- Prof. G. Vanitha
- Dr. S. Maheswari
- Dr. V. Geetha Dhanalakshmi

- Dr. R. Rajkumar
- Dr. K. Mahesh Babu
- Dr. A.K. Shafreen Banu
- Dr. R. Cynthia Monica Priya
- Dr. S. Subha
- Dr. Lino Fathima Chinna Rani
- Dr. T. Arulmozhi Devan
- Dr. T. Muralidharan
- Dr. N. Vijayaraj

7. Panel of Reviewers (External)

To Be Added

8. International Advisory Board

To Be Added

9. Technical Team

- Dr. Pearly Charles
- Dr. A. Florence Deepa
- Prof. R. Vadivel
- Dr. S. Regha
- Dr. P. Anitha Vairamani
- Prof. Rachel Betty Sugumari
- Dr. G. Paul Davidson
- Prof. Sharon Dominic
- Dr. P. Iris Punitha
- Dr. Adlin Suji
- Dr. R. Preethi
- Dr. M. Kavitha
- Dr. S. Chitra

10. Publication & Ethics Committee

- Dr. J. Gnana Prasad, Librarian, BHC
- Dr. Josephine Prabha, Asso. Dean, Academics-Sciences

11. Communication & Promotion Team

- Dr. L. Leelavathy
- Dr. B. Ramesh

12. Publication Schedule

- IJACSI is a quarterly journal, publishing four issues each year to ensure timely dissemination of high-quality research in advanced computing.
- As a quarterly publication, the journal maintains a consistent schedule,with issues released in March, June, September, and December.
- The quarterly publishing model enables rigorous peer review while ensuring a steady flow of innovative research contributions.
- Quarterly publication supports regular academic engagement and provides authors with timely visibility for their work.
- This schedule allows the journal to uphold strong, editorial standards and maintain relevance with emerging trends in Computer Science.
